OUR MISSION

Build our work on Honesty.

It is our mission with an unwavering pride that we are always aware of as we work to realize our vision; not just being honest, but “Honesty itself is our work and our service.”

OUR VISION

To contribute to building a world where all people can utilize advanced technology and realize the dreams they have envisioned.

We aspire to build a world where every person in the world can achieve their ambitions through the use of advanced technology. Our vision is to create such a world and help those who want to achieve it.

OUR COMMITMENT

As Google Cloud Partners, we are committed to providing our clients with cutting-edge technologies and exceptional customer service. Our team of experts is trained and certified to help you leverage the full potential of the Google Cloud Platform, from cloud storage and networking to machine learning and artificial intelligence.

SPECIALIZATION

This achievement reflects our continued commitment to delivering exceptional cloud solutions and deep technical expertise on the Google Cloud Platform (GCP). More importantly, it enables us to offer you enhanced support through Google Funding, specifically for any Engineer Support work related to GCP.

What this means for our Clients:

- Access to Google-backed funding to support your cloud engineering initiatives
- Priority support from certified experts across various GCP services
- Improved delivery capabilities and faster time-to-value for your projects
- Recognition that you're working with a trusted, Google-verified partner

We'd love to explore how we can leverage this specialization to add more value to your current or upcoming cloud initiatives. Please let me know a convenient time for a quick call or feel free to reply here — we're excited to help you get started.

Looking forward to continuing our collaboration with even more momentum!

OUR GLOBAL COLLABORATION

Expanding Our Global Collaboration to Strengthen Google Cloud Project Delivery in India

At Cloud Ace, we take pride in being one of the leading Google Cloud Partners globally, with a strong footprint across multiple markets. As a Japanese cloud technology company, our commitment to delivering high-quality cloud solutions has always been at the heart of everything we do.

In India, the demand for Google Cloud SI&C (System Integration & Consulting) projects continues to grow rapidly. To ensure we meet and exceed client expectations while maintaining the highest standards of delivery, we are now actively collaborating with our global divisions—including teams from Japan, Vietnam, Hong Kong, and Indonesia.

This strategic collaboration allows us to leverage engineering talent and technical expertise across borders, enhancing our delivery capabilities and ensuring timely execution of projects in India. By aligning with our overseas teams, we aim to bring the best of global knowledge and experience to our local engagements.

This is a significant step forward in our mission to provide reliable, scalable, and future-ready Google Cloud solutions to enterprises in India.

Together, across borders, we continue to build smarter with the cloud.

CAIN IS GEMINI ENTERPRISE READY

Accelerating Enterprise AI with Gemini Enterprise

As enterprises look to move beyond AI experimentation and adopt intelligent solutions at scale, Cloud Ace is strengthening its Gemini Enterprise capabilities to help organizations unlock the value of their enterprise data, knowledge, and business workflows.

With strong expertise across Google Cloud, Gemini, Vertex AI, Agent Development Kit (ADK), Retrieval-Augmented Generation (RAG), enterprise search, and Agentic AI, Cloud Ace is positioned to support customers across the complete AI journey from identifying the right business use cases to designing, deploying, integrating, and optimizing production-ready AI solutions.

Our Gemini Enterprise Capabilities

Agentic AI & Intelligent Agents

Design and deployment of intelligent agents and multi-agent workflows that can reason, interact with enterprise systems, use tools, and execute business tasks within defined controls.

Enterprise Knowledge & RAG

Build AI-powered knowledge experiences that connect Gemini with enterprise documents, data repositories, and business knowledge to provide relevant, grounded, and cited responses.

Enterprise Integration

Connect AI agents with existing business applications, APIs, data platforms, analytics systems, and operational tools, enabling AI to become part of everyday business processes.

Secure & Governed AI

Design enterprise AI solutions with appropriate access controls, human-in-the-loop approvals, auditability, grounded responses, and controlled agent execution — particularly important for regulated and

compliance-sensitive environments.

End-to-End Implementation

Support the complete journey from use-case discovery and solution assessment > Proof of Value > solution development > enterprise deployment > user enablement > continuous optimization and scale-out.

From AI Experiments to Business Outcomes

Cloud Ace's AI delivery experience covers a wide range of practical enterprise scenarios, including:

- Enterprise knowledge assistants and intelligent search
- Document intelligence, summarization, and review
- Research and information discovery workflows
- Operational copilots combining enterprise data and live business systems
- Intelligent workflow and process automation
- Compliance-sensitive workflows with approvals and human oversight
- Role-based AI assistants for business, operations, support, and corporate teams

Our approach goes beyond simply deploying an AI platform. We focus on understanding the business problem, identifying high-value opportunities, connecting AI with the right enterprise context, and delivering measurable business outcomes.

Why Cloud Ace?

Cloud Ace combines its deep Google Cloud expertise with practical experience in building and deploying real-world AI solutions across enterprise environments. Our teams are continuously expanding their Gemini Enterprise specialization through hands-on implementation, technical enablement, and Google Cloud certification programs.

With delivery capabilities across India and the wider APAC region, Cloud Ace can help organizations move confidently from AI experimentation to secure, governed, and scalable enterprise AI adoption.

Let's Build the Future with Gemini Enterprise

Whether you are exploring your first enterprise AI use case or looking to scale existing AI initiatives, Cloud Ace can help you identify where Gemini Enterprise can deliver the greatest business impact and turn that opportunity into a working solution.

Connect with Cloud Ace to explore your Gemini Enterprise journey.

NEW CUSTOMER SUCCESS STORIES

Chennai-based AI company

A Chennai-based AI company was facing GPU quota limitations under its direct Google Cloud billing, impacting its ability to scale AI workloads. Cloud Ace India helped onboard the customer to our GCP billing and worked with Google Cloud to resolve the GPU quota challenge, enabling them to scale their AI workloads smoothly.
